

Special

These babyfoot tables are versions of our B60 and B90 models with different styles and decorations. They offer the same high quality and the same feel, but are designed for different settings or a different player experience.

The cabinet is made of premium solid and laminated beechwood. The carpentry joints are reinforced with steel hardware so they can stand up to anything. The game's mechanical and moving parts are made from hi-tech materials for better play.

2-drawer Babyfoot table

In 1994, Bonzini created this new type of babyfoot table to offer customers the option of a babyfoot table that doubles as a chest of drawers, for a truly multi-purpose piece of furniture.

It is available in 2- and 12-drawer versions and features the same high quality and feel as the legendary B60 and B90 models.

It can be customized like the rest of our range (lacquer, staining, custom players and other options and accessories shown in our catalogue).
