

The **B90** with no coin mechanism - **the original babyfoot table**

This model is highly popular with individuals, companies and local governments. The B90 is a version of the B60 without the coin mechanism, produced using the same materials and processes. Unlike the B60, its one-piece cabinet does not open. The cabinet is made of premium solid and laminated beechwood. The carpentry joints are reinforced with steel elements so they can stand up to anything. The game's mechanical and moving parts are made from hi-tech materials for better play.

B90 ITSF Competition

This is the official competition table approved by the FFFT and the ITSF. Based on our original B90 model with the addition of the full suite of ITSF options, it is popular with competitive players and increasingly preferred by amateurs keen to experience the sport of table football. For full details on the Bonzini B90 ITSF official French competition table: [The official ITSF competition table](#)

Cabinet
