

The **B90** with no coin mechanism - **the original babyfoot table**

This model is highly popular with individuals, companies and local governments. The B90 is a version of the B60 without the coin mechanism, produced using the same materials and processes. Unlike the B60, its one-piece cabinet does not open. The cabinet is made of premium solid and laminated beechwood. The carpentry joints are reinforced with steel elements so they can stand up to anything. The game's mechanical and moving parts are made from hi-tech materials for better play.
