

Special

These babyfoot tables are versions of our B60 and B90 models with different styles and decorations. They offer the same high quality and the same feel, but are designed for different settings or a different player experience.

The cabinet is made of premium solid and laminated beechwood. The carpentry joints are reinforced with steel hardware so they can stand up to anything. The game's mechanical and moving parts are made from hi-tech materials for better play.

Stadium

The Stadium babyfoot table is a lighter version of the B90 (under 20 kg).

This model does not have a coin mechanism and is available in just one finish: natural beech-tone melamine, solid black lacquered beechwood legs, and the iconic Bonzini colour scheme seen on the B60 and B90.

Certain Stadium accessories and parts are different than those on the B90, including rubber shock absorbers in the place of steel springs..

This model comes with a 2-year hidden defects warranty and has an average lifespan of 15 years.
