

Special

These babyfoot tables are versions of our B60 and B90 models with different styles and decorations. They offer the same high quality and the same feel, but are designed for different settings or a different player experience.

The cabinet is made of premium solid and laminated beechwood. The carpentry joints are reinforced with steel hardware so they can stand up to anything. The game's mechanical and moving parts are made from hi-tech materials for better play.

Transparent Wheelchair Accessible Competition Model

This model was designed to meet the needs of people with disabilities who play competitive Bonzini foosball. The legs are splayed so wheelchair users can turn their wheelchairs under the table for faster, easier play.

It offers the same high quality as our B90 model and features elevating screws so the table height can be adjusted. The transparent version is currently not available in the catalogue. Learn more: [Ethics and Values](#)
